Capital gains tax base cost for shareholders pre 2001

Both the demerger of Wincanton and the divestment of the Dairy and Cheese business and connected return of capital to shareholders give rise to a need to split the base cost for capital gains tax purposes of your Uniq plc (formerly Unigate PLC) shares, if you held them on the relevant dates as follows:

1. If you were a Uniq (Unigate) shareholder on 3 July 2000 you were given shares representing an interest in Unigate Dairies which Dairy Crest then offered to buy from you for cash, a loan note or Dairy Crest shares. HM Revenue & Customs have indicated that they will accept a split of your base cost of 78.66% to Uniq plc and 21.34% to the cash, shares or loan note given by Dairy Crest.

2. If you were a Uniq plc shareholder on 17 May 2001 you will have received 1 Uniq share and 1 Wincanton share for each 2 Uniq shares then held. You should again split your base cost (that is the 78.66% of your original base cost if you held the shares prior to 3 July 2000) between your Wincanton and Uniq shares and this base cost should be allocated 50.24% to Wincanton plc and 49.76% to Uniq plc shares. HM Revenue & Customs have indicated that for convenience a 50/50 split may be used.
